canonically, but the prevalence of the law cannot in this portion of the world be so much a matter of course. The great bulk of the entire Foreign Trade—she ought to exercise a paramount influence over her commerce, and the nations under her reported, she has been made manifest in her demands, and she has always displayed consideration and fairness. Her advice should therefore be followed, and the Chinese Government.

We looked to the important changes we have recommended to your Lordship would, if introduced, be attended with the most beneficial results, and would be effected by the proper exercise of the influence which Great Britain still possesses. The only point on which I think your age will but soon be deprived of. On the other hand, we greatly apprehend that to rely on longer periods of time, and to look on with impunity, she will not merely to do so, but with increasing confidence, and in the extension of foreign Powers, who, by the adoption of more vigorous measures, will succeed in obtaining influence in the East, and in injured interests of the subjects, while they have at the same time added their political influence in the East.

I have the honor to be, Sir, Your Lordship's most obedient servant, Henry Russell, W. Kissinger, Chairman, on behalf of the Chinese Government.

the vast new market sections being read, the Chairman, referring to the report of the committee, said that the result which was anticipated from it, of increasing the number of the members of the Chamber, was being accomplished. He hoped that this resulted from the full adoption of the new rules now being generally adopted in the Chamber of Commerce in London. He pointed out that progress in China, whether directly apparent in commerce or not, should be taken into consideration, and that the Chamber should be enlarged to 150 members. The election of Messrs. Vogel, Henderson & Co. as directors of the Chamber was announced.

THE REPORT.

After the reading of the report, as given by length, the proposal of the Chairman, seconded by Mr. K. B. Smith, was carried by a large majority. Mr. K. B. Smith, in giving the report, said that the Chamber had been organized in 1862, and that since that time it had been steadily increasing in number and in the scope of its operations. He pointed out that the Chamber had been successful in securing the attention of the Government to the interests of the Chinese community in London, and in securing the recognition of the Chamber as a body representing the Chinese community in London. He pointed out that the Chamber had been successful in securing the attention of the Government to the interests of the Chinese community in London, and in securing the recognition of the Chamber as a body representing the Chinese community in London. He pointed out that the Chamber had been successful in securing the attention of the Government to the interests of the Chinese community in London, and in securing the recognition of the Chamber as a body representing the Chinese community in London.

by the Hon. Mr. Taylor, the Report, sent accompanied by a copy of the Committee's report, was read. The Committee have pleasure in stating that the members of the Chamber of Commerce have thanked the attention during the past half year.

The Honorable L. van Buren.

In accordance with a resolution passed to the effect that the Chamber should proceed to the recall of the U. S. Minister, the Honorable Mr. L. K. Brown, from Chicago, was appointed a member of the Committee. The members of the Chamber have now sent to Mr. Brown, to the British Minister, a copy of the Chamber's resolution, and the Department in Washington.

Partial Condonation with Excess.

At the meeting of the Chamber of Commerce, the subject of a letter from the Secretary of the Treasury, dated the 10th of June, was referred to the Hon. Attorney General, from whom he replied, in an open house received by the Chamber.

A Special General Meeting of the Chamber was held on the 10th of June, and the following resolutions were adopted, and stand as follows:

Resolved, That all Mercantile Firms and persons engaged in or interested in the Trade of China, shall be eligible for admission to the Chamber of Commerce, on the following conditions:—That they shall be eligible for admission on payment of \$50 for firms, and \$10 for single individuals, and that they shall be eligible in January, 1859.

The object of this provision was to admit to the Chamber of Commerce, persons interested in the Trade of China, whether bona fide Merchants or otherwise.
